GRIP Database

- Most Powerful Database currently available
- Designed by Law Enforcement Officers from multiple agencies
- Web Based, no program to install on Agency Network
- Easy to share information between agencies that are on GRIP
- Automatic notification of incidents to Responsible individuals, Officer, Abatement, Contractors.
- Citizen reporting feature to allow registered citizens to participate in filing crime reports or sending in crime tips.
- Secure Compliance with Code of Federal Regulations (CFR) 28 Part 23
- Secure User Log In
- Quick and easy reporting and easy to search on any field. Search by name, moniker, location or any number of fields.
- Multiple graphs and charting available
- Normal single agency cost \$850 per year, nearest competitor charges \$30,000 per year and does ½ of GRIP.
- Google Mapping for Many crimes, allowing agencies to track and view trends visually
- Investigator case information. Investigator can maintain complete record of investigation right online.
- Multiple access levels, Citizen, read only, Clerk/Contractor and Law Enforcement. Access level determines how much information can be viewed.
- Database can be customized to fit agency needs
- GRIP Website, www.gripsystems.org
