

# ***The Nograf Network Inc.***

## ***A Non Profit 501 C3 Corporation***

The Nograf Network Inc. Completed a 47 California City survey which included small, medium and large cities to gain the best cost figures.

We found that the total cost from all affected agencies was just over 246 million per year, or \$12.60 per capita of the affected cities.

If we expanded this survey based on Per Capital cost, California alone would come out to 463,133,991.00 (463 Million Per Year)

If we expanded this survey based on Per Capital cost for the whole United States, that comes out to 3,831,152,522.00 (3.8 Billion Per Year)

If we expanded this survey based on Per Capital cost for the World, we end up with a cost of \$75 Billion Per Year

This survey does not include loss to private property, businesses or loss in real estate values.

A 1990 Survey by the National Graffiti Information Network which was merged with Nograf, completed a survey of business loss due to graffiti, Their survey found the U.S. Loss of 8 Billion Per Year, if you then take into account the cost of inflation and such, the current total is around 15 to 18 Billion dollars a year to the US.

For property valuation loss, the California Board of Realtors stated that there is a 20% reduction in the price of a home in graffiti prone areas. If we include loss of real estate values using the data from the California State Board of Realtors, we could be looking at a possible loss of 63 Billion in property values - California Alone!

California City/County	Cost		Other Cities/States	
Alhambra	\$30,000.00		Las Vegas	\$1,000,000.00
